

Happy Mother's Day !

Get May Flower Seeds

Grundy County Land Use Department has provided pollinator friendly flower seed packets to the Grundy County libraries for Mother's Day!

In celebration of Mother's Day, your local library will have flower seeds from April 29th until supplies last.

These seeds are pollinator friendly which is important to our environment. The flowers seed out in the fall and in the spring may generate new flower plants.

Practice the fourth R or Respect your Earth by planting these seeds and honoring the moms in your life!

Thank you

Thank you to the Grundy County
Land Use Committee and the County Board
for your support.
